

Mere Bowl

“Mere Bowl was inspired by a small porcelain piece that Salla made on the pottery wheel in our studio — the contrast between its conical round shape and the strict line of its bottom inspired us to continue experimenting with it. Initially prototyping with paper, we created bowl-like surfaces through folding, later moving from bendable materials to the rigidity of plaster. We wanted it to be as much a humble and utilitarian item as an elegant stand-alone sculptural form, casting beautiful shadows when empty.”

About the Designer	Kaksikko is a Helsinki-based design studio that specializes in ceramic tableware and wooden furniture, founded by Salla Luhtasela and Wesley Walters. The duo shares an interest in functional, understated forms that highlight each material’s tactile qualities, as well as in the production process itself. They met while studying at Aalto University School of Arts, Design and Architecture and have collaborated on a broad range of professional projects under the studio name Kaksikko.
Environment	Indoor
Country of Production	Portugal
Preassembled	Yes.
Description	The Mere Bowl is a sculptural centerpiece, one that looks beautiful in a tablescape or space whether it is in use or not. Its characteristic shape is simple yet ingenious, as a line down its middle folds out to the sides forming a bowl. Elevated by a discrete foot, it looks as if floating. Manufactured in tactile ceramic stoneware, it has been coated in a high-gloss glaze that enhances the shadows that form along Mere Bowl’s fold. This surface treatment makes the bowl food safe.
Material	Made in ceramic stoneware with a high gloss glaze inside & out. The production process makes each bowl unique with small deviations in color, thickness and surface.
Cleaning & Care	Handwash only with water or soapy water.
