LIFE MADE COMFORTABLE — WHEREVER YOU ARE

In the world we live in, where distances between cultures and ideas are diminishing as the opportunity to travel is easier and faster than ever before, it is important to have certain strongholds in life. As a Danish furniture design company, we try to give every piece of furniture in our collection functionality and aesthetic expression that mirror the essence of our own culture.

Danish designers are fortunate to have a rich heritage of design culture to draw upon and we feel privileged to work with some of the best of our times. They create furniture with the clean lines, honest feel and ever-present functionality Danish design is famous for. Even more important though is that these designers have managed to incorporate our philosophy and our values into each piece.

Our goal with our furniture is to make life comfortable. This philosophy spans over many aspects from designing a product, over social responsibility and sustainability during production, to the obvious comfort and convenience in every day use.

Our customer's demands and our efforts result in a collection of furniture that suits your needs and moods. This year, we are again introducing new designs complemented with splashes of bright colours and practical accessories.

Life is many things. Quiet moments alone as well as happy gatherings of friends. Experiencing the great outdoors as well as enjoying urban living. For us, it is a long and never-ending journey of travel, exploration and enjoyment.

BRIAN DJERNES
CEO, CANE-LINE A/S

LIFE
MADE

FOCUS ON PEOPLE
ENVIRONMENTAL RESPECT
SUSTAINABLE DEVELOPMENT
CARE & FAIRNESS

Our values

SUSTAINABILITY & SOCIAL RESPONSIBILITY

“In all that we do, we are conscientious of our responsibility and follow our principles. Cane-line products are manufactured with the greatest care for our environment and the well-being of people.”

SUSTAINABILITY IS
ALSO ABOUT
TIMELESS DESIGN

Responsibility goes beyond the design and production of furniture. Cane-line's production is committed to a sound environmental policy and an ongoing focus on improving working conditions in the countries in which we operate.

This means that no child labour is allowed and that wage levels are fair and in accordance with local legislation. In addition, we are conscious about the consumption of resources, about recycling and the cleaning of waste water. These standards apply to both us and our suppliers and we continually strive to improve conditions in their factories. Our corporate conduct and activities have earned international certifications submitting us to external control on an ongoing basis. This is your guarantee that we are committed to safeguarding people and the environment.

INTERNATIONAL CERTIFICATIONS

Cane-line is certified by Bureau Veritas Certification ISO 14001/2004 and SA 8000/2008.

Paper and printing ink used in producing Cane-line's catalogue 2014 meet the criteria for the Nordic Eco label.

ClimateCalc

This printed material is Climate compensated by South Pole. Certificate No. SP-3VU100341B120553L

WE SUPPORT

The UN Global Compact is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with ten universally accepted principles.

AESTHETICS & FUNCTIONALITY**

Our design philosophy

AESTHETICS & FUNCTIONALITY

“Every design is created with the Scandinavian summer days and nights in mind bringing you a vibrant outdoor living experience where the furniture complements the atmosphere.”

AWARD WINNING
DESIGN & QUALITY
OUTDOOR FURNITURE

The Cane-line designers strive to make aesthetics and functionality go hand in hand. Tables prolong the sense of space in the open, while the chairs express your particular style.

To all designers, the design and expression of every single piece of furniture matter, but at Cane-line comfort is as much a core issue. Our whole collection is created to add value to your outdoor living. That is why durable quality and easy maintenance accompany exclusive designs and complete comfort.

THE DESIGNERS

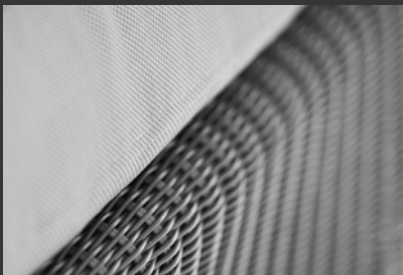

SCANDINAVIAN STYLE AND MINIMALISM

FOERSOM & HIORT-LORENZEN MDD

STRAND+HVASS

RIKKE FROST

JESPER K. THOMSEN

FOERSOM & HIORT-LORENZEN MDD

For many years, two of Scandinavia's most successful and renowned furniture designers have been designing timeless classics for Cane-line, encapsulating in full our philosophy: Life Made Comfortable.

Johannes Foersom and Peter Hiort-Lorenzen never compromise on comfort or visual expression. Years of experience and their strong skills reveal themselves in details of exceptional high standards, both in quality and craftsmanship.

For this season, the dynamic duo has designed the elegant Core dining set and the flexible Traveller folding chair. The soft curves of the Core table raise classic teak furniture to a new level. Both the Core dining chair and the Traveller folding chair are created with a quilted seat and back of Cane-line Tex®, making cushions obsolete and life even more comfortable. The conical shaped pipes of the frame of any of the three products are not only a beautiful design feature but actually make the table and the chairs strong and hardwearing in spite of their light appearance.

Their impressive use of flexibility makes the furniture appear as small architectonic wonders. Foersom & Hiort-Lorenzen are always at the leading edge of market needs and trends. A design duo that blend aesthetics, comfort and quality to perfection.

STRAND+HVASS

Christina Strand (MDD) and Niels Hvass (MAA) are part of the new generation of significant Scandinavian designers. With their Breeze Collection, which has been growing since 2009, they have hit the bull's-eye of Cane-line design, matching the human need for well-being with the furniture's full potential.

The strong weave provides natural ventilation for the body and leads light through, so the chair decorates and complements the outdoor living area. The light models and the airy look do not easily give away the complete comfort that encompasses the design.

After the successful launches of both the award-winning On-the-Move (2012) and the sleek Time-Out coffee tables (2013), this innovative duo has again worked with aluminum to create the Chill Out table series for the 2014 collection. The large Chill Out coffee table delights the user with its individually lifting table top - gone are the days of hunching over a coffee table meal! The small practical Chill Out nesting tables are lightweight yet sturdy and have a modern timeless look to them, making them a great companion in any setting. Think out of the box and even use them as alternative stools!

Always taking the human aspect and the way we live as their point of departure, Strand+Hvass again and again manage to combine expression, shape and material to perfection.

RIKKE FROST

The joint history of Cane-line and industrial designer Rikke Frost took its beginning in 2007. Rikke Frost was working on the refurbishment of a resort on the Caribbean island of Anguilla when she came in touch with Cane-line.

This encounter produced the spectacular sunbed Escape, beautifully designed and fully recognising the need for sunny days. With its stylish look, adjustable back and comfortable shape, this sunbed has become a popular item worldwide and a permanent piece in the Cane-line Collections.

JESPER K. THOMSEN

The strong team has been enlarged with the industrial designer Jesper K. Thomsen. The experienced capacity is known for creating simplified designs that solve complex challenges. With roots in the Danish design tradition, Jesper K. Thomsen has created Cave, a stylish remake of the classic canopied swing sofa. The material is customized and maintenance-free weave in a quiet and warm colour. Design and details ensure the convenience which the model itself invites to.

CANE-LINE DESIGN TEAM

The Cane-line designers share deep roots in the Danish design tradition built on craftsmanship, quality and a simple yet distinctive expression. At the same time, this complies with the Cane-line course that is gaining grounds globally.

The Nordic light flourishes in every single design, as does the love for precious outdoor moments. This foundation makes it easy for our strong team of designers to live up to the essence of Cane-line - Life Made Comfortable.

Maintenance-free

WATER-RESISTANT & EASY TO CLEAN

“To optimise your special time and place for leisure and pleasure, all our furniture is maintenance-free and weatherproof. Therefore you can spend time on more interesting things.”

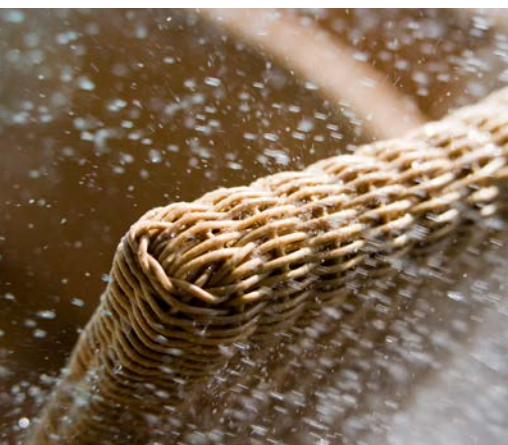

All Cane-line models are made of unique materials. The Cane-line fibre is a dyed, hard-wearing polyethylene, and Cane-line Tex® is a coated polyester sling material. The materials withstand large temperature differences and the change of seasons.

All furniture is UV-resistant, colourfast and resistant to water and frost damage. Nevertheless, we recommend that furniture is placed indoors during winter or covered with one of our matching covers. In principle, the entire outdoor collection is maintenance-free, but ordinary cleaning of your furniture will keep it looking sharp for years and most definitely prolong its lifetime.

CLEANING

One of the best ways to keep fabrics (cushions) looking good and to delay deep or vigorous cleaning is to properly maintain the fabrics regularly.

This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon after stains occur.

Many stains can be removed from the fabric with mild soap and lukewarm water. Mix mild soap and lukewarm water and remove the stain with a sponge or soft bristle brush. Be sure to rinse thoroughly to remove all soap residue and then allow the fabric to air-dry by placing the cushion in an up-right position.

CANE-LINE TEX®

WASH WITH WATER MIXED WITH MILD SOAP AND REMOVE STAINS WITH A SPONGE OR MEDIUM BRUSH.

- Removable covers on the scatter cushions
- Covers for scatter cushions and plaids are washable at 30 °C
- Excellent for both indoor and outdoor use

TEMPOSTEST®

- 100 % solution-dyed acrylic fabric
- Teflon coated
- Resistant to UV rays
- Removable covers - washable at 30 °C (fibre-covered cold foam)
- Air dry - upright
- Excellent for both outdoor and indoor use

DRALON®

- 100 % acrylic fabric
- Resistant to UV rays
- Handwash 30 °C (do not remove covers!)
- Commercial foam rinse recommended for large cushions - please follow maker's instructions
- Air dry - upright

SUNBRELLA®

- 100 % solution-dyed acrylic fabric
- Water and stain repellent
- Resistant to UV rays
- Removable covers - Machine wash at 30 °C
- Air dry - upright

DK

SELECTED PP

- 100 % Polypropylene
- Modstandsdygtig over for UV stråling
- Aftageligt betræk på pyntepuderne
- Betrækket på pyntepuderne / plaiden kan vaskes ved 30 °C
- Sædeles velegnet til både inden- og udendørs brug

TEMPOSTEST®

- 100 % gennemfarvet akryl fiber (solution dyed)
- Teflonbehandlet
- Modstandsdygtig over for UV stråling
- Aftageligt betræk - betrækket kan vaskes ved 30 °C (skumkernen er betrukket med syntetisk fiberpose)
- Lufttørres lodret
- Velegnet til inden- og udendørs brug

DRALON®

- 100 % gennemfarvet akrylfiber
- Modstandsdygtig over for UV stråling
- Hynden kan håndvaskes ved 30 °C (betrækket må ikke fjernes!)
- Skumrens anbefales til større hynder - følg anvisning på rengøringsmidlet
- Lufttørres lodret

SUNBRELLA®

- 100 % gennemfarvet akrylfiber
- Vand- og pletafvisende
- Modstandsdygtig over for UV stråling
- Aftageligt betræk, der kan maskinvaskes ved 30 °C
- Lufttørres lodret

DE

SELECTED PP

- 100 % Polypropylen
- Widerstandsfähig gegenüber UV-Strahlung
- Zierkissen mit abnehmbarem Bezug
- Der Bezug der Zierkissen/Decke kann bei 30 °C gewaschen werden.
- Für Drinnen und Draußen bestens geeignet

TEMPOSTEST®

- 100 % Acrylfaser (Solution dyed)
- Teflonbeschichtet
- UV-beständig
- Abziehbare Kissenbezüge - Bezüge bei 30 °C waschbar (Kalt Schaumstoff steckt in einer Innenhülle)
- Aufrechtstehend an der Luft trocknen
- Ausgezeichnet für den Außen- und Innenbereich

- Résistant aux rayons UV
- Lavable à la main à 30 °C (n'enlevez pas la couverture!)
- Le nettoyage mousse est recommandé pour les grands coussins - veuillez suivre les instructions sur l'emballage du nettoyant
- Sécher tout droit

SUNBRELLA®

- Fibre acrylique teinte à 100% en solution (solution dyed)
- Résistant à l'eau et aux taches
- Résistant aux rayons UV
- Housse lavable en machine à 30 °C
- Séchage à l'air libre verticalement

IT

SELECTED PP

- 100 % Polipropilene
- Resistente ai raggi UV
- Rivestimento sfoderabile su cuscini decorativi
- La fodera dei cuscini / plaid è lavabile a 30 °C
- Particolarmente adatto sia per uso interno sia esterno

TEMPOSTEST®

- Tessuto 100 % acrilico tinto (solution-dyed)
- Rivestito di teflon
- Resistente ai raggi UV
- Fodera rimovibile - lavabile a 30 °C (l'anima del cuscino in schiuma fredda è ricoperta in tessuto)
- Eccellente per uso all'esterno e all'interno

DRALON®

- Tessuto acrilico 100%
- Resistente ai raggi UV
- Lavabile a mano a 30 °C (non rimuovere le fodere!)
- Per i cuscini più grandi si raccomanda la pulizia a schiuma - seguire le istruzioni del produttore
- Fare asciugare in posizione verticale

SUNBRELLA®

- Tessuto acrilico 100% tinto in massa (solution dyed)
- Idrorepellente e antimacchia
- Resistente ai raggi UV
- Fodera lavabile in lavatrice a 30 °C
- Fare asciugare all'aria in posizione verticale

ES

SELECTED PP

- 100 % polipropileno
- Resistente a la radiación UV
- Cojines con funda desmontable
- Funda de cojines/manta lavables a 30 °C
- Adecuado para uso en interiores exteriores

TEMPOSTEST®

- 100 % acrílico teñido (solution dyed)
- Teflon cubierto
- Resistente a la alta radiación UV
- Funda desmontable - La funda permite lavado a 30 °C (el nucleo de espuma está recubierto de una bolsa de fibra sintética)
- Se ha concebido para uso tanto interior como exterior

DRALON®

- 100 % acrílico
- Resistente a la alta radiación UV
- El cojín permite lavado a mano a 30 °C (Sin sacar la funda!)
- Se recomienda utilizar un limpiador de espuma para los cojines grandes - siga las instrucciones de uso del producto de limpieza
- Secado vertical

SUNBRELLA®

- 100 % acrílico teñido (solution dyed)
- Repelente a agua y a las manchas
- Resistente a la alta radiación UV
- Admite lavado a máquina a 30 °C
- Secar al aire en posición vertical

PT

SELECTED PP

- 100 % polipropileno
- Resistente à radiação UV
- Capa de almofada para almofadas decorativas
- A capa de almofada decorativa pode ser lavada a 30 °C
- Adequada para uma utilização no interior e no exterior

TEMPOSTEST®

- 100 % fibras acrílicas tingidas (solution dyed)
- Teflon revestido
- Resistente aos raios UV
- Capas removíveis - laváveis a 30 °C (espuma fria recoberta de fibra)
- Excelente tanto para uso em interiores como ao ar livre

DRALON®

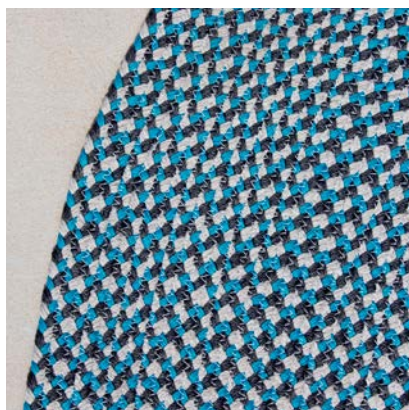

- Tecido 100 % acrílico
- Resistente aos raios UV
- Lavável à mão a 30 °C (não retirar as capas!)
- Produto comercial para limpeza de espuma recomendado para almofadas grandes - seguir as instruções do fabricante
- Secagem em pé

SUNBRELLA®

- 100 % fibras acrílicas tingidas (solution dyed)
- Repelente a água e nós doas
- Resistente aos raios UV
- Capas removíveis - Capa lavável na máquina a 30 °C
- Secagem ao ar - em pé

COVERS

COVER 1

COVER 7

COVER 8

FURNITURE COVERS These covers are made from a strong, waterproof, solution-dyed polyester fabric, which will protect furniture during the winter, though not against frost. Covering furniture for the winter makes spring cleaning easier and prolongs the life of the furniture. It is advisable to check covers after heavy falls of rain / snow and remove any water that has collected so as to ensure that the furniture remains properly covered.

5086 ST + P099 FB / 210 X 100 CM - 83 X 39"

STAINLESS STEEL FRAME WITH FIBER CONCRETE TOP
5088 ST + P093 FB / 100 X 100 CM - 39 X 39"

THE TABLE TOP IS A HANDMADE PRODUCT, CAST IN FIBRE CONCRETE. THIS COMBINATION PRODUCES A VERY LIGHT, STRONG TABLE TOP WITH A CONTEMPORARY, RUSTIC APPEARANCE. AS THE TABLE TOPS ARE CAST BY HAND THEY HAVE A NATURAL VARIATION IN APPEARANCE.

THE TABLE TOP HAS BEEN TREATED WITH A SEALER; HOWEVER THE TOP IS STILL SUSCEPTIBLE TO STAINS (GREASE AND RED WINE, FOR EXAMPLE). IT IS THEREFORE ADVISABLE TO WIPE THE TABLE TOP IMMEDIATELY AFTER SPILLS WITH A DAMP CLOTH AND DISHWASHING DETERGENT.

MATERIALS & CLEANING

CANE-LINE WEAVE® All the woven furniture in the collection is hand-made using Cane-line's unique fibres. The fibres are maintenance-free and we recommend cleaning the products with ordinary household cleaners and water. The furniture can be left outside all year long. To ease cleaning, the furniture can be stored under our Covers in winter or when not in use for longer periods of time.

CANE-LINE TEX® Cane-line Tex® is a coated polyester sling fabric excellent for outdoor use. After exposure to rain or dew, place cushions with the perforation facing down, so water and moisture can escape easily. We recommend using a Cover when not in use for longer periods of time. Essential when storing Tex® furniture inside or outside is good air circulation and the ability for water and moisture to be able to escape. Tex® furniture and cushions can be cleaned with water and ordinary household cleaners using a middle to hard brush.

CANE-LINE ROPE This thermoplastic fibre is maintenance-free and can be cleaned easily using ordinary household cleaners. Avoid pulling/pushing the elastic material too hard as this may cause it to lose its shape on the furniture. The furniture can be left outside all year long. Using furniture Covers will ease spring cleaning.

GLASS Glass table tops are produced of 8 mm toughened glass. They are maintenance-free and can be left outside all year round. For daily cleaning, ordinary household cleaners and water can be used. It is important not to scratch the film from underneath the frosted glass tops.

TEAK Teak table tops are supplied untreated and will develop a patina over time. If you wish to treat your teak table top, we recommend using teak oil - this will make the wood darker. To ease spring cleaning you can store your teak table under a Cover.

SLATE Slate table tops are made from natural slate tiles and must be treated with a natural stone sealer before use to make them resistant to dirt and weather. Slate table tops are not frost proof and must therefore be stored indoors during the winter.

HPL / HIGH PRESSURE LAMINATE Compact laminate is a very suitable material for outdoor use. The table top is made from resin-impregnated paper, which is compressed under very high pressure to a strong board with a scratch-resistant surface. These table tops require basically no maintenance and can remain outdoors all year round. Compact laminate will naturally get a bit lighter at

the edges over time. In order to maintain the deep black colour of the edges, they can be freshened up by rubbing a little linseed oil on them. It is recommended that you cover the table with a furniture cover in the autumn and winter period.

TRAVERTINE Travertine is a natural limestone with small, natural cavities, giving it a rustic look. It also has lovely, natural variations in colour. No two travertine tiles are ever identical. It is advisable to store travertine indoors during the winter to prevent frost damage. The tiles have been treated at delivery, but it is advisable to wipe up any spills, for example of red wine, immediately.

CERAMIC The ceramic tops / tiles are made of porcelain, which is an extremely strong material that can be left outdoors all year round. They are made using natural materials, so there may be small colour variations between the tops / tiles. The tiles can be cleaned with ordinary household cleaners and water.

STAINLESS STEEL Stainless steel is extremely weather proof and can be left outside all year long. However, tarnishing can occur in form of flash rust. This can be removed using a stainless steel cleaner. Regular cleaning with soapy water can help to protect the surface of the stainless steel and so minimize the effects of chlorine, etc. It is also advisable to wipe the base with acid-free oil at least twice a year to minimize tarnishing.

FIBER CONCRETE Fiber concrete is a mixture of cement and quartz sand to which fiberglass has been added. This combination produces a very light, strong table top with a contemporary appearance. As the table tops are cast and finished individually, each one is unique, i.e. there are variations in shading and no two table tops are exactly the same. It is advisable to protect the table top with a suitable cover or store it in a lean-to during the winter. The tops are treated with a sealer upon delivery but the treatment must be refreshed regularly. Daily cleaning is with ordinary household cleaners and water.

RESIN The Resin table top is made from casted polyester composite. The tops require minimal care and maintenance and can be left outside all year long. Daily cleaning can be done with ordinary household cleaners and water.

ALUMINUM All aluminum products are powder coated for extra durability. They require a minimum of maintenance and can be left outside all year round. To clean, use ordinary household cleaners and water.

For cleaning instructions in more languages, visit www.cane-line.com

MATERIALS

THE CANE-LINE TEX®

UK Cane-line Tex® is a coated polyester sling fabric excellent for outdoor use, requiring only a minimum of care and maintenance. Cushions with Cane-line Tex® come with QuickDryFoam®, which provides maximum drainage and air circulation allowing the cushions to dry faster after being exposed to rain or dew. QuickDryFoam® also has antibacterial protection preventing fungus and mold growth inside the cushion.

DK Cane-line Tex® er et coated polyester materiale, som er meget velegnet til udendørs brug og kræver minimal vedligeholdelse. Hynder med Cane-line® Tex leveres med QuickDryFoam®, som sikrer maksimal dræning og luft-cirkulation. Hynden tørrer herved hurtigere, når den har været udsat for regn og fugt. QuickDryFoam®-skummet har ligeledes en anti-bakteriel beskyttelse, som forhindrer svamp og mug i hynden.

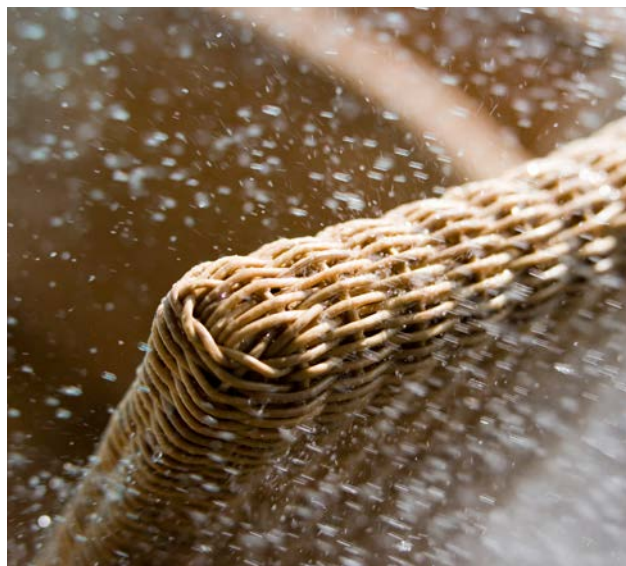

DE Cane-line Tex® ist ein beschichteter Stoff aus Polyesterschlingen für die Verwendung im Freien, der - außer einer regelmäßigen Reinigung mit handelsüblichem Kunststoffreiniger- praktisch keine Pflege erfordert. Kissen mit einem Bezug aus Cane-line Tex® sind mit QuickDryFoam® ausgestattet, der höchste Feuchtigkeitsableitung und Luftzirkulation ermöglicht, wenn die Kissen Regen oder Tau ausgesetzt waren. QuickDryFoam® bietet auch einen antimikrobiellen Schutz gegen Schimmel- und Pilzbildung im Kissen.

FR Cane-line Tex® est un tissu tressé de corde de polyester, enrobé, tout indiqué pour une utilisation à l'extérieur et qui ne nécessite qu'un minimum d'entretien. Les coussins en Cane-line Tex® sont garnis de mousse Quick-dry foam®, qui assure un maximum de drainage et de circulation d'air et permet ainsi un séchage plus rapide des coussins, s'ils sont exposés à la pluie ou à l'humidité. La mousse Quick-dry foam® offre également une protection antimicrobienne qui prévient la formation de champignons et moisissures à l'intérieur du coussin.

IT Cane-line Tex® è un tessuto di poliestere rivestito utilizzato per sedili e schienali di mobili da giardino, che richiede un livello minimo di cura e manutenzione. I cuscini in Cane-line Tex® contengono la schiuma QuickDryFoam®, dotata di straordinarie proprietà drenanti e traspiranti che consentono ai cuscini di asciugare più in fretta dopo l'esposizione alla pioggia o alla rugiada. La schiuma QuickDryFoam® offre inoltre una protezione antimicrobica che previene la crescita di funghi e muffe all'interno del cuscino.

ES Cane-line Tex® es una excelente tela recubierta de poliéster para uso en exteriores, que requiere un cuidado y mantenimiento mínimos. Los cojines de Cane-line Tex® se facilitan con espuma de relleno QuickDryFoam®, para optimizar la salida del agua y la circulación del aire permitiendo que éstos sequen rápidamente después de exponerse a la lluvia o el rocío. QuickDryFoam® ofrece además protección antimicrobiana que impide la aparición de moho y hongos en el interior del cojín.

PT Cane-line Tex® é um excelente tecido revestido a poliéster destinado a utilização em exteriores, e que requer apenas cuidados e manutenção mínimos. As almofadas com Cane-line Tex® são fornecidas com QuickDryFoam®, o que proporciona uma drenagem e circulação de ar máximas, permitindo que as almofadas sequem rapidamente depois de terem sido expostas à chuva ou humidade. A QuickDryFoam® também possui uma protecção anti-microbiana, evitando o aparecimento de fungos e bolor no interior da almofada.

THE CANE-LINE WEAVE®

UK Cane-line Weave® is a fibre made of dyed and hard-wearing polyethylene. Its water-resistant features make it withstand large temperature differences and excellent for outdoor use. The structure of the fibres and the weave provide flexibility and optimum comfort. This material is hard-wearing and UV-resistant and is overall maintenance-free. Weave is made to withstand weather conditions all over the world and the material maintains its colours and shape for years on end.

DK Cane-line Weave® er en fiber af gennemfarvet og slidstærkt polyethylene, der er som skabt til udendørs brug, fordi det tåler vand og store temperaturforskelle. Både fibrenes struktur og fletmetoden sikrer spændstighed og optimal siddekomfort. Materialet er UV-resistent og slidstærkt og behøver principielt ingen vedligehold. Weave er skabt til vejrforhold over hele verden, og materialet holder farve og facon i en lang årrække.

DE Cane-line Weave® ist eine Faser aus gefärbtem und strapazierfähigem Polyethylen. Dank ihrer wasserbeständigen Eigenschaften kann sie großen Temperaturunterschieden widerstehen und ist ausgezeichnet für die Verwendung im Freien geeignet. Die Struktur der Fasern und das Gewebe bieten Flexibilität und höchsten Komfort. Das Material ist strapazierfähig und UV-beständig und erfordert praktisch keine Pflege. Weave widersteht Witterungsbedingungen in aller Welt. Das Material behält viele Jahre lang seine Farbe und Form.

FR Cane-line Weave® est une fibre fabriquée à partir de polyéthylène coloré et résistant à l'usure. Grâce à ses propriétés hydrofuges, il résiste aux importants écarts de température et convient parfaitement pour une utilisation à l'extérieur. La structure des fibres et du tissage offre une grande souplesse et un confort optimal. Robuste et doté d'une bonne tenue aux UV, ce matériau ne nécessite pratiquement aucun entretien. Weave a été conçu pour résister aux conditions climatiques partout dans le monde et conserve ses couleurs et sa forme d'année en année.

IT Cane-line Weave® è una fibra di polietilene tinto ad alta resistenza. Impermeabile all'acqua, è in grado di resistere ad ampie variazioni termiche ed è quindi particolarmente indicato per l'uso all'aperto. La struttura delle fibre e l'armatura del tessuto garantiscono flessibilità e comfort ottimale. È un materiale resistente all'usura e ai raggi UV che non necessita di manutenzione. Weave è indicato per qualsiasi condizione atmosferica e conserva colori e forma originali inalterati nel tempo.

ES Cane-line Weave® es una fibra fabricada en polietileno tintado y muy duradero. Sus características de resistencia al agua le permiten aguantar temperaturas muy dispares, siendo óptima para el uso en exteriores. La estructura de las fibras y el tejido ofrecen flexibilidad y máximo confort. Se trata de un material duradero y resistente a los rayos ultravioletas que, en general, no requiere mantenimiento. Weave está pensado para soportar las condiciones meteorológicas de cualquier entorno, con un material que conserva los colores y la forma durante años.

PT Cane-line Weave® é uma fibra feita de polietileno tingido e de grande resistência. A sua capacidade de resistência à água fazem-na suportar grandes diferenças de temperatura, sendo excelente para utilização em exteriores. A estrutura das fibras e a tecelagem proporcionam flexibilidade e um conforto otimizado. Este material resiste ao desgaste e aos UV, e não necessita de manutenção. Weave está concebido para suportar as condições atmosféricas em todo o mundo, e o material mantém as cores e a forma durante anos.

THE CANE-LINE ROPE

UK Cane-line Rope is a new combination of thermoplastic fibre that is ideal for outdoor use because it is maintenance-free and withstands changing weather conditions. The material is elastic and has a soft surface that acts like a fabric. Cane-line Rope is UV-resistant and dries quickly after it has rained.

DK Cane-line Rope er en ny kombination af termoplastisk fibre, der er skabt til udendørs brug, fordi det er vedligeholdelsesfri og tåler skiftende vejrforhold. Materialet er elastisk og har en blød overflade, der virker som stof. Rope er UV-resistent og tørrer hurtigt efter en regnbyge.

DE Cane-line Rope ist eine neuartige Kombination aus thermoplastischen Fasern, die für den Gebrauch im Freien entwickelt wurde, da sie pflegefrei ist und wechselnden Witterungsbedingungen standhalten kann. Das Material ist elastisch und hat eine weiche Oberfläche, die wie Stoff wirkt. Rope ist UV-beständig und nach einem Schauer schnell wieder trocken.

FR Cane-line Rope est un nouveau mélange de fibres thermoplastiques conçu pour un usage en extérieur. Il ne requiert en effet aucun entretien et résiste à toutes les conditions climatiques. Ce matériau est élastique et présente une surface souple ayant l'apparence d'un tissu. Rope est résistant aux UV et sèche rapidement après une averse.

IT Cane-line Rope è una nuova combinazione di fibra termoplastica. Priva di manutenzione e resistente a condizioni atmosferiche variabili, è indicata per l'uso all'aperto. È un materiale elastico e dalla superficie morbida, con un effetto simile a un tessuto. Cane-line Rope resiste ai raggi UV e asciuga rapidamente dopo la pioggia.

ES Cane-line Rope ofrece una novedosa combinación de fibras termoplásticas óptima para uso en exteriores, ya que no requiere mantenimiento y soporta condiciones meteorológicas cambiantes. El material es elástico y ofrece una superficie suave que tiene el tacto de una tela. Rope es resistente a los rayos UV y se seca rápidamente tras la lluvia.

PT Cane-line Rope é uma nova combinação de fibras termoplásticas criada para uso em exteriores, pois dispensa manutenção e é resistente às alterações climáticas. O material é elástico e apresenta uma superfície macia que se assemelha ao tecido. Rope é resistente aos raios UV, e seca rapidamente depois da chuva.

MEASUREMENTS

CHOOSE YOUR MODULAR SOFA

The modular series make it easy for you to create a flexible outdoor space and shape it exactly as you want to. When you put together your lounge group, be aware of whether you choose a right or a left module. Think of how you sit comfortably when you choose a sofa with one armrest. If you prefer support under the right arm, choose a right-hand model. And select the opposite if armrest on the left fits the arrangement or your habits.

5405 RAG

A person is sitting on a white beach chair on a sandy beach. They are holding a small white cup in their hands. The background shows the ocean with waves and dark rocks under a bright, low sun, creating a warm, golden glow. The text "LIFE MADE COMFORTABLE" is overlaid in large, white, sans-serif capital letters.

CREATE YOUR OWN UNIQUE MOMENTS...

Cane-line®

Cane-line is a Danish design company that has been in business for more than 25 years. We are specialized in hand-woven materials and weatherproof furniture.

All over the world, our mission is the same – to make life comfortable and to add value to places to unwind and relax. You will find Cane-line collections in 90 countries worldwide.

Life made comfortable is the very essence of Cane-line. We focus on quality and comfort and make our furniture with the greatest care for the environment and the well-being of people.
